Smarter everyday living

SmartCol brings together useful robotics and smart devices selected to make everyday tasks simpler, more comfortable and more connected. This initial catalogue introduces product categories; availability, specifications, prices and delivery terms should be confirmed before purchase.

Practical innovation
Products chosen for useful everyday functions.

Clear information
Key features explained in plain language.

Personal enquiries
Ask about compatibility and delivery.

International ambition
Serving markets as availability allows.

Explore the range

01 Cleaning robots · 02 Outdoor robotics · 03 Smart home & security · 04 Specialized cleaning robots · 05 Connected devices

01 Robot vacuum cleaners

Automated floor care for busy homes and workspaces.

What to look for

- Vacuuming and, on selected models, mopping
- App or Wi-Fi control on compatible models
- Automatic return to charging dock on selected models

Before you order

Featured product: Teendow T13S (as supplied by seller). Confirm exact specifications, included accessories, warranty and regional compatibility before publication.

02 Outdoor robotics

Tools designed to reduce routine outdoor maintenance.

What to look for

- Robotic lawn mowers for suitable gardens
- Scheduling and app control on selected models
- Check garden size, slope, boundaries and weather rating

Before you order

Product selection and suitability depend on the model and the customer's outdoor space.

03 Smart home & security

Connected devices that help you monitor and manage your home.

What to look for

- Smart cameras and video doorbells
- Smart locks and access devices
- Sensors, alarms and connected plugs

Before you order
Check app support, Wi-Fi requirements, installation needs, privacy features and compatibility before buying.

04 Specialized cleaning robots

Purpose-built devices for windows and other hard-to-reach surfaces.

What to look for

- Window-cleaning robots for compatible glass surfaces
- Pool-cleaning robots on selected ranges
- Compare safety features, surface compatibility and maintenance

Before you order

Always follow the manufacturer's instructions and use required safety attachments.

05 Smart everyday devices

Small connected products that make daily routines easier.

What to look for

- Smart plugs and lighting controls
- Environmental sensors and automation accessories
- Energy-monitoring devices where supported

Before you order

Confirm voltage, plug type, app ecosystem, certifications and local availability.

Let's find the right device for you.

Tell us what you want to make easier at home or work. We can discuss suitable products, current availability and delivery options.
